DENSITIES OF SOLUTIONS OF CONDENSED GASES
Ar---CH₄, N₂---CH₄. [1963] [19]p. 11 refs.

Order from CTS or SLA \$1.60

63-19976

Trans. of Ukrayins'kyi Fizychnyi Zhurnal (USSR) 1959,
v. 4 [no. 5] p. 577-585.

DESCRIPTORS: *Liquefied gases, Density, *Argon,
*Mathemes, *Nitrogen, Molecular association, Volume,
Mathematical analysis, Solutions.

The densities of solutions of condensed gases Ar-CH₄
and N₂-CH₄ were measured. The volumes of these
solutions were found to be nonadditive. A correlation
was established between the excess volume of mixing,
on the one hand, and the energy of mixing and com-
pressibility of the solution, on the other. The experi-
mental results were compared with theoretical values,
satisfactory agreement being achieved. (Author)
